

BACTAZYME

Enzyme Drain Maintainer & Organic Odor Control

Description: Bactazyme is a bioenzymatic formulation (bacteria/enzyme blend) specifically designed to promote accelerated grease liquefaction and digestion. This unique bio-formulation combines patented scientifically developed grease digesting bacteria with selected fat splitting crude enzymes to achieve the ultimate bio-formulation for difficult grease problems. Bactazyme liquefies and digests fats, oils and greases faster than other competitive formulations.

Directions: Use approximately 2oz of Bacatazyme on areas needing buildup removal. Repeat daily/weekly as needed. For problem systems double the recommended feed rate or the first 2 weeks, 1oz per inch diameter of drain, 2-Daily for the first 5-7 days or if problem begins to reoccur.

Benefits-Features: LIQUEFIES AND DIGESTS FATS, OILS AND GREASES FASTER THAN COMPETITION • PLEASANT SCENT • SAFE TO USE • EASY-TO-USE

Advantages: NON CORROSIVE • NON-PATHENOGENIC • SAFE TO HANDLE AND STORE • EACH BATCH IS TESTED AND CERTIFIED SALMONELLA-FREE

Where to Use: Bactazyme is ideal for use in any scenario where a noncorrosive, safe, and organic solution for grease and oil buildup removal in drains is needed.

Recommended For: HOSPITALS • RESTAURANTS • SCHOOLS • INSTITUTIONS
CORRECTIONAL FACILITIES • MUNICIPALITIES • INDUSTRIAL/COMMERCIAL • NURSING HOMES
• DAY CARE CENTERS • PUBLIC FACILITIES
