## GROUT 66™

**Description:** A rapidly effective, low odor, non-fuming, high sudsing, acid base detergent for a variety of cleaning and descaling operations, especially designed to make old grout look like new again. This concentrated product may be used undiluted for severe encrustation of scale, mineral deposits, alkaline matter, or diluted with water for economical removal of hard water formations, soap scum, corrosion, lime build-up, or mortar spatters. This unique formulation combines chemical strength of blended acids with the emulsification properties of high sudsing synthetic detergents. Cleans debris from brick and masonry surfaces, ceramic tile, mortar stone, and metallic surfaces **other than** aluminum or magnesium. This product is ideal for cleaning, degreasing, and providing a light etch to concrete floors. Water conditioners assist in film-free rinsing of cleaned surface.

**Directions:** Test product in an inconspicuous area on colored grout. Rinse and allow to dry. Make sure the product does not color the grout or damage the tile finish or surface. Check for dulling effect. May discolor or damage clothing, carpeting and baseboards.

1. If grout has been sealed, it is recommended to remove sealer with a strong stripper to prevent uneven cleaning results.
2. Apply to a 2" x 2" area to grout seam only. Allow 2-3 minutes for product to penetrate.
3. Agitate product over stubborn stains with a soft scrub brush or toothbrush. Do not allow product to splash on nearby surfaces.
4. Rinse area thoroughly with clean water. If product is not rinsed thoroughly, grout residue may deposit on tile causing a dull effect. Discard brush and sponge after use.
5. A second application may be necessary. Do not use until dry.

**NOTE:** DO NOT USE this product if you have any existing respiratory problems such as asthma or emphysema.

**Benefits - Features:** ONE STEP CLEANING OF GROUT LINES ON ALL TILE AND CONCRETE FLOORS.

**Where to Use:** CONCRETE, GROUT, BRICKS, ALL MASONRY SURFACES

**Instructions:** For use on FLOORS only. Not for use on vertical surfaces or countertops where run off may cause damage. Not for use on marble, terrazzo, travertine or any natural stone, chrome, stainless steel, brass or Corian®. KEEP OUT OF REACH OF CHILDREN.

**Container Disposal:** Triple rinse container before discarding in accordance with state and local registrations.

**Spill or Leakage Procedures:** Contain fluid by diking. Neutralize with soda, ash or baking soda.

**Specifications:**

APPEARANCE .....	Clear	USDA CATEGORY .....	A3
COLOR .....	Clear	LBS./GAL. ....	9.0
ODOR .....	Sassafras	pH .....	1.0
SHELF LIFE....	1 Yr in sealed container		
FLASH POINT .....	NONE
