

ARMCHEM

LUSTER

METAL CLEANER & POLISH

Description: LUSTER is an odorless, emulsified cleaner and polish made to restore original luster and shine to Stainless Steel, Chrome, Copper, Aluminum, as well as other metal surfaces. This product's light foam clings to vertical surfaces and cleans without acids, abrasives, or chlorinated solvents. It removes tough oil based stains, watermarks, fingerprints, spots, and stains of food origin. LUSTER leaves a unique protective coating that resists fingerprints and soils, and will not leave a greasy film or build up on surfaces. This product may be used to clean and polish Plexiglas sneeze guards.

Directions: SHAKE WELL BEFORE USING. UNIQUE 360° VALVE ALLOWS SPRAYING IN AN UPRIGHT OR INVERTED POSITION.

1. Spray a light film directly on the surface to be cleaned or onto a clean cloth.
2. Wipe surface with a dry, soft cloth.
Buffing with another clean cloth will make surfaces sparkle.

Benefits - Features: USE ON STAINLESS, COPPER • CHROME, ALUMINUM • SAFE TO USE ANYWHERE INCLUDING PLEXIGLAS • RESISTS FURTHER SOILING
CLEANS, POLISHES, BRIGHTENS • INVISIBLE COATING

Advantages: ONE PRODUCT DOES IT ALL • NO PETROLEUM DISTILLATES • NO GREASY FILM
