

OXX-OFF

Descaling Detergent

Description: OXX-OFF is a rapidly effective, low odor, non-fuming high-sudsing acid base detergent for a variety of cleaning and descaling operations. This concentrated product may be used undiluted for severe encrustations of scale, mineral deposits, and alkaline matter, or diluted with water for economical removal of hard water formations, soap scum, corrosion, lime build-up, or mortar splatters.

Directions: OXX-OFF may be used undiluted or mixed in up to 10 parts of water. Wet surface and leave for 10-15 minutes, until the desired results are obtained. Repeat if necessary. Rinse thoroughly with running water. Keep vertical surfaces well wetted during soak periods. Heavy accumulations of corrosion, rust, or lime may require a second application and up to 30 minutes of soak time. If metal surfaces are to be painted, this should be done as soon as the surface is dry. Do not apply to chrome, magnesium, or zinc.

Benefits-Features: HIGH-SUDSING • CONCENTRATED • REMOVES RUST STAINS • DISSOLVES SCALE AND CORROSION • REMOVES STAINS FROM IRRIGATION SYSTEMS

Advantages: CAN BE USED UNDILUTED OR DILUTED IN UP TO 10 PARTS WATER • ETCHES CONCRETE FOR PAINTING • NON-FUMING • WORKS QUICKLY • FILM-FREE RINSING

Where to Use: RUST • LIME • SOAP SCUM • HARD WATER • CONCRETE • METAL OTHER THAN MAGNESIUM, ALUMINUM, OR ZINC • BRICK AND MORTAR

Recommended For: SCHOOLS • CORRECTIONAL FACILITIES • MUNICIPALITIES • INDUSTRIAL/COMMERCIAL • PARKS • SWIMMING POOLS • PUBLIC FACILITIES • INSTITUTIONS
