If On Skin: Thoroughly wash exposed area with soap and water. Remove contaminated clothing. Wash before reuse. If irritation see a doctor.

If In Eyes: Flush with large amounts of water, lifting upper and lower lids occasionally. Seek medical attention immediately.

If Breathed: If affected, remove individual to fresh air. If breathing is difficult, administer oxygen. Keep person warm and quiet. Get medical attention.

If Swallowed: Do not induce vomiting. Give water or lemon juice to drink. Keep person warm, quiet and seek immediate medical attention.

Section 5 – Fire Fighting Measures

Flash Point: None

Flammable Limits in Air: Upper: NAP Lower: NAP

Extinguishing Media: Regular foam, carbon dioxide, dry chemical, for surrounding fire.

Hazardous Decomposition Products: May form corrosive fumes, hydrocarbons and Carbon Oxides. Combustible vapors are heavier than air.

Firefighting Procedures: Wear self-contained breathing apparatus with a full facepiece operated in the positive pressure demand mode when fighting fires.

Special Fire and Explosion Hazards: None.

Section 6 - Accidental Release Measures

Personal Precautions:

For personal protection see section 8. Persons not wearing protective equipment should be excluded from the area of the spill until cleanup has been completed.

Environmental Precautions:

Prevent from entering drains, sewers, streams or other bodies of water. Prevent from spreading. If runoff occurs notify authorities as required.

Methods for Cleaning Up Spills:

Small Spill: Pick up with spoon or spatula and dispose as directed by local regulatory norms.

Large Spill: Stop spill at source. Isolate and recover spilled product with an absorbent material. Transfer spilled product to clean containers for recovery. Pick up unrecoverable product with spatula and dispose according to local laws.

Section 7 – Storage & Handling

KEEP OUT OF REACH OF CHILDREN

For industrial and institutional use only. Store in a cool, dry, well - ventilated area. Do not store at temperatures in excess of 120°F for prolonged periods.

Always store in original container. Keep container tightly closed. Follow all label instructions and precautions.

Section 8 - Exposure Control / Personal Protection

Respiratory Protection: If workplace exposure limits product or any component is exceeded, a NIOSH/MSHA approved air supplied respirator is advised in absence of proper environmental control. OSHA regulations also permit other NIOSH/MSHA respirators (negative pressure types) under specified conditions. Engineering or administrative controls should be implemented to reduce exposure.

Ventilation: Provide sufficient mechanical ventilation to maintain exposure below TLV.

Protective Gloves: Rubber, neoprene or other resistant elastomer.

Eye Protection: Chemical splash resistant goggles

Other Protective Clothing & Equipment: Rubber aprons and boots when working with large quantities.
